

# ABY ADINTHYA

Backend Developer | Full Stack Developer

Jakarta, Indonesia · +62 857-7599-6740 · adinthyaaby@gmail.com · LinkedIn · GitHub

## PROFESSIONAL SUMMARY

Informatics Engineering graduate focused on backend and full-stack web development, with hands-on experience building web applications, REST APIs, database-driven systems, and multi-role applications. Experienced with PHP, Laravel, Node.js, Java, React.js, Next.js, JavaScript, and MySQL.

## TECHNICAL SKILLS

- Languages:** PHP, Java, JavaScript, SQL
- Backend:** Laravel, CodeIgniter, Node.js, Express.js, Spring Boot
- Frontend:** React.js, Next.js, HTML5, CSS3
- Database & API:** MySQL, REST API, RESTful API, CRUD, API Integration
- Architecture:** RBAC, Multi-Role Applications
- Tools:** Git, GitHub, Postman, VS Code, IntelliJ IDEA

## EXPERIENCE

**Freelance Developer — BUMDES E-Commerce & Management System** · South Jakarta · Remote · Apr 2025 – Jul 2025

- Built a multi-role BUMDES management/e-commerce platform supporting Admin, Chairman, Seller, Customer, and Courier.
- Developed e-commerce workflows including product management, inventory tracking, and transaction logging.
- Developed backend API for manual payment processing and implemented custom discount and shipping-fee calculations.
- Implemented automated chat for real-time order status and product inquiry responses.

## PROJECTS

**KlinikConnect — Clinic Management Platform** (Laravel · React.js · MySQL)

- Developed a clinic management platform with online registration, doctor scheduling, and medical record management.
- Implemented RBAC for Doctors, Receptionists, and Patients, including backend workflows and API integration.

**Smartphone Recommendation System — Java Web** (Java Servlet · JSP · JDBC · MySQL · Apache Tomcat)

- Developed a web-based smartphone recommendation system using Java Servlet and JSP.
- Implemented JDBC/MySQL integration and the SAW (Simple Additive Weighting) method for multi-criteria recommendations.

**Inpatient Information System** (Java Swing · MySQL)

- Developed an inpatient management application covering patient admission, discharge, and medical records.
- Implemented database CRUD for Patients, Doctors, and Rooms with Admin/Staff role access.

## EDUCATION

**Universitas Indraprasta PGRI** — Bachelor of Informatics Engineering · 2020–2024

## CERTIFICATIONS

Intro to Full Stack Web Development · Belajar Dasar Cloud dan Gen AI di AWS · Memulai Pemrograman dengan Java · Website Development: Front End · Introduction to Cybersecurity

## LANGUAGES

Indonesian — Native · English — Elementary
